

Wood-Aluminium Systems  
**GUTMANN Door Leafs**

## GUTMANN Door Leafs

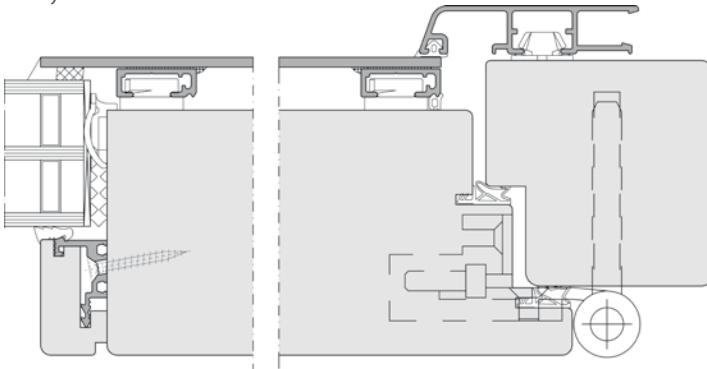

With a GUTMANN aluminium face shell, the desire for a custom door without compromises can be realized. Timeless design and contemporary appearance give the door a personal touch. The advantages of wood and aluminium complement each other perfectly:

The aluminium leaf ensures maximum protection on the outside and wood creates a warm, comfortable ambience in the interior space. GUTMANN aluminium door leafs are available in practically every color and every conceivable design.
